Hi Melinda

Thank you - I had a nice trip, we went to Rio to visit my husband's family. We were lucky to have great weather and the opportunity to do lots great things.

Monday 8-17 is fine for ALC feedback, or if you need a little more time that is fine too. I am sorry it took me so long to finally send it to you. Hopefully, you will not run into too many issues/questions.

Hope everything great with you . Talk to you next week

Cheers

Becky

Nonresponsive

ALC calculations early this week. However, on Friday (8/7), I was pulled into the response effort for the Gold King mine spill to the Animas and San Juan Rivers (CO/NM), and today is my first day back to my regular duties. I'm going through emails today and prioritizing my work. I apologize for the delay and know you need ALC input as soon as possible. Would it be okay if I get back to you by COB Monday (8/17) on the ALC calculations? (This would give you ~1.5 weeks to process any input I may have before your 8/26 public meeting.)

Nonresponsive

Thanks!

Melinda
